## **INDEPENDENT AUDITOR'S REPORT**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and aggregate remaining fund information of the **Township of Mastodon**, as of and for the fiscal year ended March 31, 2006, which collectively comprise the Township's basic financial statements as listed in the Table of Contents. These financial statements are the responsibility of the Township's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by the Board of Trustees, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

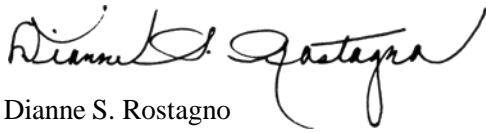

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the **Township of Mastodon** at March 31, 2006, and the respective changes in financial position and cash flows thereof for the fiscal year then ended, in conformity with generally accepted accounting principles in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated May 24, 2006 on our consideration of the **Township of Mastodon's** internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grants.

The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

The management's discussion and analysis on pages 8 through 20 and the budgetary comparison information are not a required part of the basic financial statements but are supplemental information required by the *Governmental Accounting Standards Board* and by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of the inquiries of management, regarding the methods of measurement and presentation of the required supplemental information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the **Township of Mastodon's** basic financial statements. The combining and individual fund financial statements are presented for the purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual fund financial statements have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

## **MANAGEMENT'S DISCUSSION AND ANALYSIS**

# **Mastodon Township**

The management of the Township of Mastodon provides this narrative overview and analysis of the financial activities of the Township of Mastodon for the fiscal year ended March 31, 2006. As readers, you are encouraged to read this discussion and analysis in conjunction with the Township's financial statement information included in this report.

## ***Overview of the Financial Statements***

This discussion and analysis is intended to serve as an introduction to the Township's basic financial statements. The financial section of this report includes management's discussion and analysis, the basic financial statements, and required supplementary information. The basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

## ***Government-wide financial statements***

The government-wide financial statements are designed to provide readers with a broad overview of the Township's finances, in a manner similar to a private-sector business.

The Statement of Net Assets presents information on all of the Township's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the Township is improving or deteriorating.

The Statement of Activities presents information showing how the government's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

Both of the government-wide financial statements distinguish functions of the Township that are mainly supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their cost through user fees and charges (business-type activities). The governmental activities of the Township include legislative, general government, Township property, public safety, public works, and parks and recreation. The business-type activity of the Township is the Water Utility service.

## ***Fund Financial Statements***

The Township, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. A fund is a grouping of related accounts used to maintain control over resources that have been segregated for specific activities or objectives. In the basic financial statements, the emphasis of the fund financial statements is on major funds. All of the funds of the Township can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

## ***Governmental Funds***

Governmental Funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. This information may be useful in evaluating the Township's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. In order to provide the reader with information to better understand the long-term impact of the government's near-term financing decisions, a reconciliation between the government-wide financial statements is included as part of the basic financial statements.

The Township maintains three governmental funds. Information is presented separately in the governmental fund balance sheet and governmental fund statement of revenues, expenditures, and changes in fund balance for the general and road funds, both of which are considered major funds. The Liquor Law Enforcement Fund is a non-major governmental fund. Individual fund data for each fund is presented separately in the "Other Supplementary Information" section of this report.

The Township adopts an annual budget for its general and other governmental funds. To demonstrate compliance with this budget, a budgetary comparison statement has been provided for the general and other major governmental funds, and is included in the "Required Supplementary Information" section of this document.

## ***Proprietary Funds***

Proprietary Funds provide services for which the Township charges customers a fee. The Township has only one type of proprietary fund - an enterprise fund. The enterprise fund of the Township is used to report the same functions as the business-type activities in the government-wide financial statements. The Water Utility Fund is presented separately in both the government-wide financial statements and the fund financial statements and is considered a major fund. Enterprise funds are used to account for operations very similar to business enterprises, where the intent of the governing body is that the cost of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges.

## ***Fiduciary Funds***

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. The fiduciary fund for the Township is the Tax Collection Fund. Fiduciary funds are not included in the government-wide financial statements because the resources of those funds are not available to support the Township's own programs. This fund is presented separately in the fund financial statements section of the basic financial statements.

## ***Notes to the Financial Statements***

Notes to the financial statements are included in the basic financial statements, and provide additional information that is essential for a full understanding of the data provided in the government-wide and the fund financial statements.

## ***Supplementary Information***

Required supplementary information follows the basic financial statements, and includes budgetary comparison schedules for the General Fund and the Township's major special revenue funds as presented in the governmental fund financial statements.

A separate financial statement for the Township's non-major governmental funds is also included in the Other Supplementary Information section of this document.

## *Government-wide Financial Analysis*

In time, net assets of a governmental entity may serve as a useful indicator of the government's financial position. In the case of the Township, assets exceeded liabilities by \$ 850,326 at March 31.

By far, the largest portion of the Township's net assets (approximately 70%) is held in the form of cash and cash equivalents. In addition, a substantial percentage (approximately 26%) of the total net assets are in the form of capital assets. These capital assets are used to provide services to citizens and are not available for future spending. It should also be noted that these assets are free of related debt. At March 31, 2006, the Township reported \$ 222,304 in net capital assets.

External restrictions of the Township's net assets represent resources subject to existing external obligations or programmatic control on future use. The remaining balance of unrestricted net assets of \$458,159 may be used to meet the Township's ongoing obligations to citizens and creditors.

Total net assets in excess of liabilities at March 31 for the governmental activities and business-type activities were \$ 845,166 and \$5,160, respectively.

## ***Governmental Activities***

Property taxes and other tax revenues comprise \$236,938 or approximately 76 percent of total governmental revenues. And, at fiscal year-end, the Township reported \$31,912 in grants and contributions not restricted for specific programs. This amount was due entirely to the State of Michigan's state sales tax distribution.

The Township expended \$213,582 on governmental programs and services. Some of the largest expense categories were for general government, where \$63,222, or 29 percent of total governmental expenditures were made; \$32,006 was expended for the maintenance of Township property, and \$30,079, or 14 percent of total governmental expenditures were made for public safety.

## ***Business-type Activities***

Business-type activities increased the Township's net assets by \$603. Charges for services for the Water activities for the year ended were \$3,316. Total expenses for the Water activities for the year ended were \$2,754.

## ***Financial Analysis of the Governmental Funds***

As previously noted, the Township uses fund accounting to ensure and demonstrate compliance with finance-related requirements.

## ***Governmental Funds***

The focus of the Township's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. This information is useful in assessing the Township's financing requirements. In particular, the unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

The Township's governmental funds reported combined ending fund balances of \$622,862, of which \$165,184 is reserved and the remaining \$457,678 is available for spending at the government's discretion.

On the budgetary basis of accounting, the Township ended the fiscal year with revenues greater than the original and the final projections. Total expenditures in the General Fund and the Road Fund were considerably less than both the original and the final projections. At fiscal year-end, both the General Fund and the Road Fund fund balances were higher than budgeted.

### **Revenue – Budget vs Actual for Fiscal Year Ended March 31, 2006:**

	<b>Revenue Original Budget</b>	<b>Revenue Final Budget</b>	<b>Revenue Final Actual</b>	<b>Revenue Variance Actual vs Original Budget</b>	<b>Revenue Variance Actual vs Final Budget</b>
General Fund	202,496	202,496	227,715	25,219	25,219
Road Fund	73,399	73,399	80,550	7,151	7,151

### **Expenditures – Budget vs Actual for Fiscal Year Ended March 31, 2006:**

	<b>Expenditures Original Budget</b>	<b>Expenditures Final Budget</b>	<b>Expenditures Final Actual</b>	<b>Expenditures Variance Actual vs Original Budget</b>	<b>Expenditures Variance Actual vs Final Budget</b>
General Fund	257,421	257,421	167,090	90,331	90,331
Road Fund	96,367	96,367	15,937	80,430	80,430

General fund financial and budgetary highlights of the fiscal year include:

- \* Property taxes, administration fees, and other taxes were slightly higher than the original and final budgetary projections.
- \* State sales tax distributions were up from the budgeted amounts, coming in at \$31,912, which exceeds by \$5,937 the budgeted estimates of \$25,975.
- \* Expenditures in total for the general fund were \$167,090, less than the final amended budget by \$90,331. This was largely due to the fact that expenditures for legislative activities, Township Hall expenditures, general government, and fire protection were considerably less than the amounts appropriated for these purposes.

## ***Governmental Funds (Continued)***

Special revenue funds financial and budgetary highlights of the fiscal year include:

- \* Road repair costs incurred during the year were considerably less than the amount budgeted, with actual expenditures of \$15,937, compared to the budgeted \$96,367.

## ***Proprietary Funds***

The Township's proprietary fund provides the same type of information found in the government-wide financial statements, but in more detail.

Net assets of the Water Fund at year-end were \$5,160.

The change in net assets was a gain of \$603.

## **Capital Assets and Debt Administration**

### ***Capital Assets***

The Township's investment in capital assets, net of accumulated depreciation, for its governmental and business-type activities as of March 31 was \$222,304. The investment in capital assets includes land, buildings, improvements, infrastructure, machinery and equipment, and licensed vehicles.

Infrastructure assets represent \$ 9,085 or just approximately 1.3 percent of the estimated original cost of total assets. All infrastructure is accounted for in the General Fund, and consists of sewer mains and lines.

A major capital event during the current fiscal year included:

- \* The sale of the Porter School for \$1.

## ***Capital Assets and Debt Administration (Continued)***

### ***Long-term debt***

The Township has no long-term debt at March 31, 2006.

State statutes limit the amount of general obligation debt a governmental entity may issue to 10 percent of its total assessed valuation. Since the Township has no outstanding general obligation debt, this is not a concern to the Township.

## **Other Economic Factors and Next Year's Budget**

### ***Economic Factors***

Despite rising costs and limited resources, the Township will continue to strive to provide good social and cultural conditions that support healthy families, and maintain a safe and clean community in which to live.

The Township's fiscal year 2006-2007 general fund budget is \$310,415 representing a modest increase from the previous fiscal year. This is due primarily to the amount of revenues anticipated from the sale of the Township Hall and Fire Hall.

Significant plans and major priorities for the Township for the 2006-2007 fiscal year include:

- \* Sale of the township hall and fire hall buildings,
- \* Sale of First Street garage
- \* Purchase of a parcel of land on which to construct a new township hall and fire hall, and possibly a new municipal garage. The estimated cost of the project is \$350,000.

## **NOTES TO THE FINANCIAL STATEMENTS**

<b>TOWNSHIP OF MASTODON</b>
-----------------------------

**NOTES TO THE FINANCIAL STATEMENTS**

*MARCH 31, 2006*

**NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The accounting methods and procedures adopted by the **Township of Mastodon**, Alpha, Michigan, conform to generally accepted accounting principles as applicable to governmental entities. The following is a summary of the more significant policies:

**THE FINANCIAL REPORTING ENTITY**

The **Township of Mastodon** covers an area of approximately 83789 acres. The Township operates under an elected Council (5 members) and provides services to approximately 435 residents in many areas including law enforcement protection, general administration, and water services. In accordance with the provisions of GASB 14, certain other governmental organizations are not considered to be part of the Township entity for financial reporting purposes. The criteria established by GASB 14 for determining the various governmental organizations to be included in the reporting entity's financial statements include separation of electing governing body and legal status, and fiscal independence.

**NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**THE FINANCIAL REPORTING ENTITY(Continued)**

On this basis, the financial statements of certain other governmental organizations are not included in the financial statements of the Township.

**BLENDED COMPONENT UNITS**

A blended component unit is a legally separate entity from the local unit, but it is so intertwined with the unit that it is, in substance, the same as the local governmental unit.

A basic strategy of GASB 14 is to present financial information for component units separately from the financial information for the primary government. This is achieved through the discrete presentation method. However, in the case of blended component units, GASB believes that it would be more appropriate to use the blending method to incorporate the financial information of a component unit into the reporting entity's financial statements.

**NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**BLENDED COMPONENT UNITS (Continued)**

When the blending method is used, transactions and balances of a component unit are merged with similar transactions and balances of the primary government so that there is no way to identify which balances relate to the component unit and which relate to the primary government.

There are no blended component units reported in the audited financial statements for the **Township of Mastodon**.

**JOINT VENTURES**

A joint venture is a legal entity or other organization that results from a contractual agreement and that is owned, operated, or governed by two or more participants as a separate and specific activity subject to joint control, in which the participants retain an ongoing financial interest or an ongoing financial responsibility.

**NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**JOINT VENTURES (Continued)**

An ongoing financial responsibility is determined as a participating government's obligation in some manner for debts or the joint venture's existence depends on continued funding by the participating government.

There are no joint ventures to be reported.

**JOINTLY GOVERNED ORGANIZATIONS**

A jointly governed organization is a multi-governmental arrangement that is governed by representatives from each of the governments that create the organization, but that is not a joint venture because the participants do not retain an ongoing financial interest or responsibility.

There are no jointly governed organizations to be reported.

**NOTES TO THE FINANCIAL STATEMENTS  
(CONTINUED)**

*MARCH 31, 2006*

**NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**RELATED ORGANIZATIONS**

A related organization is an organization for which a primary government is not financially accountable (because it does not impose will or have a financial benefit or burden relations) even though the primary government appoints a voting majority of the organization's governing board.

There are no related organizations to be reported.

**BASIS OF PRESENTATION**

The Township follows GASB Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis - for State and Local Governments*. GASB Statement No. 34 adds the following components to the financial statements:

**NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**BASIS OF PRESENTATION (Continued)**

***Management's Discussion and Analysis***

A narrative introduction and analytical overview of the government's financial activities. This analysis is similar to analysis the private sector provides in their annual reports.

***Government-wide financial statements***

These include financial statements prepared using full accrual accounting for all of the government's activities. This approach includes not just current assets and liabilities (such as cash and accounts payable) but also capital assets and long-term liabilities (such as buildings and infrastructure, including bridges and roads, and general obligation debt). Annual accounting also reports all of the revenues and costs of providing services each year, not just those received or paid in the current year or soon thereafter.

***Government-wide financial statements (Continued)***

The government-wide statements include the Statement of Net Assets and the Statement of Program Activities.

***Statement of Net Assets***

The Statement of Net Assets displays the financial position of the primary government (government and business-type activities).

Governments report all capital assets, including infrastructure, in the government-wide Statement of Net Assets and report depreciation expenses - the cost of "using up" capital assets - in the Statement of Activities.

***Statement of Net Assets (Continued)***

The net assets of a government are broken down into three categories - 1) invested in capital assets, net of related debt; 2) reserved; and 3) unreserved.

***Statement of Program Activities***

The statement of program activities reports expenses and revenues in a format that focuses on the cost of the government's functions. The expense of individual functions is compared to the revenues generated directly by the function (for instance, through user charges or intergovernmental grants).

***Budgetary comparison schedule***

Demonstrating compliance with the adopted budget is an important component of a government's accountability to the public.

**BASIS OF PRESENTATION (Continued)**

***Budgetary comparison schedules (Continued)***

Many citizens participate in the process of establishing the annual operating budgets of state and local governments, and have a keen interest in following the actual financial progress of their governments over the course of the year. The Township and many other governments revise their original budgets over the course of the year for a variety of reasons.

As required by accounting principles generally accepted in the United States of America, these financial statements present the primary government entities for which the government is considered to be financially accountable.

**GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS**

The basic financial statements include both government-wide (based on the Township as a whole) and fund financial statements.

**GOVERNMENT-WIDE AND FUND FINANCIAL  
STATEMENTS (Continued)**

The reporting model focus is on both the Township as a whole and the fund financial statements, including the major individual funds of governmental and business-type categories, as well as the fiduciary funds, (by category).

Both the government-wide and fund financial statements (within the basic financial statements) categorize primary activities as either governmental or business type. In the government-wide Statement of Net Assets, both the governmental and business-type activities columns (a) are presented on a consolidated basis by column, and (b) are reflected, on a full accrual, economic resource basis, which incorporates long-term assets and receivables as well as long-term debt and obligations.

**GOVERNMENT-WIDE AND FUND FINANCIAL  
STATEMENTS (Continued)**

Both governmental-wide and fund financial statement presentations provide valuable information that can be analyzed and compared (between years and between governments) to enhance the usefulness of the financial information.

The Township generally uses restricted assets first for expenses incurred for which both restricted and unrestricted assets are available. The Township may defer the use of restricted assets based on a review of the specific transaction.

The government-wide Statement of Activities reflects both the gross and net cost per functional category (public safety, public works, parks and recreation, etc.) that are otherwise being supported by general government revenues (property, sales and use taxes, certain intergovernmental revenues, fines, permits and charges, etc.).

**GOVERNMENT-WIDE AND FUND FINANCIAL  
STATEMENTS (Continued)**

The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants, and contributions.

The program revenues must be directly associated with the function (public safety, public works, culture and recreation, etc.) or a business-type activity. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operation or capital requirement of a particular function or segment. Taxes and other items not properly included among program revenues are reported as general revenues. The Township does not allocate indirect expenses.

The operating grants and contributions column includes operating-specific and discretionary (either operating or capital) grants while the capital grants and contributions column reflects capital-specific grants.

In the fund financial statements, financial transactions and accounts of the Township are organized in the basis of funds.

The operation of each fund is considered to be an independent fiscal and separate accounting entity, with a self-balancing sets of accounts recording cash and/or other financial resources together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations. The fund statements are presented on a current financial resource and modified accrual basis of accounting.

STATEMENTS (Continued)**

This is the manner in which these funds are normally budgeted. Since the governmental fund statements are presented on a different measurement focus and basis of accounting than the government-wide statements' governmental activities column, a reconciliation is presented which briefly explains the adjustments necessary to reconcile the fund financial statements to the governmental activities column of the government-wide financial statements.

The Township's fiduciary funds are presented in the fund financial statements by type (pension, private purpose and agency). Since by definition these assets are being held for the benefit of a third party (other local governments, private parties, pension participants, etc.) and cannot be used to address activities or obligations of the government, these funds are not incorporated into the government-wide financial statements.

**GOVERNMENT-WIDE AND FUND FINANCIAL  
STATEMENTS (Continued)**

The following is a brief description of the specific funds used by the Township.

**GOVERNMENTAL FUNDS**

These funds are those through which most governmental functions typically are financed.

The acquisition, use, and balances of the Township's expendable financial resources and the related current liabilities, except those accounted for in the Proprietary Fund, are accounted for through the Governmental Funds. These funds are as follows:

***General Fund***

This fund is used for all financial transactions not accounted for in another fund, including the general operating expenditures of the local unit.

***General Fund (Continued)***

Revenues are derived primarily from property taxes and state and federal distributions, grants and other intergovernmental revenues.

The General Fund is always considered a major fund for reporting purposes.

***Special Revenue Funds***

These funds are used to account for specific governmental revenues requiring separate accounting because of legal or regulatory provisions or administrative action. The Township's *Liquor Law Enforcement* and *Road Repair* funds are Special Revenue Funds.

The Road Repair fund is considered a major fund for reporting purposes. The Liquor Law Enforcement fund is considered a non-major fund for reporting purposes.

***Debt Service Fund***

This fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal and interest.

There is currently no debt service fund for the Township.

***Capital Projects Fund***

These funds are used to account for the purchase and/or construction of capital facilities by a governmental unit which is not accounted for by Proprietary Funds, Special Assessment Funds, or Trust Funds. The various resources of the governmental unit to be used in the projects, such as General Fund contributions, grants from other units of government and bond proceeds, flow into the Capital Project Fund. Expenditures incurred in the development of the facility are also recorded within the Capital Project Fund.

There is currently no capital projects fund for the Township.

***Enterprise Funds***

These funds are used to account for operations (a) that are financed and operated in a manner similar to private business enterprises----where the intent of the governing body is that the costs (expenses including depreciation) of providing goods and services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purpose. The Township's *Water Fund* is an Enterprise Fund.

For reporting purposes, the Water Fund is considered to be a major fund.

Trust and Agency Funds are used to account for assets held by the Township in a trustee capacity for individuals, private organizations, other governmental units, and/or other funds. The Township's *Current Tax Collection Fund* is a Fiduciary Fund.

**MEASUREMENT FOCUS**

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds are accounted for using the current financial resources measurement focus. With this measurement focus, only current liabilities generally are included on the balance sheet in the funds statements. Long-term assets and long-term liabilities are included in the government-wide statements.

## **INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

Board of Trustees  
**Township of Mastodon**  
Alpha, Michigan 49902

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the **Township of Mastodon** as of and for the year ended March 31, 2006, which collectively comprise the **Township of Mastodon's** financial statements, and have issued our report thereon dated May 24, 2006. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

### Internal Control Over Financial Reporting

In planning and performing our audit, we considered the **Township of Mastodon's** internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no such matters involving the internal control over financial reporting and its operations that we consider to be material weaknesses.

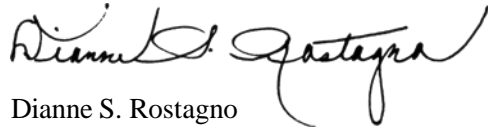

### Compliance and Other Matters

As part of obtaining reasonable assurance about whether the **Township of Mastodon's** financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts.

Compliance and Other Matters (Continued)

However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the audit committee, management, the Board, and federal awarding agencies and pass-through entities, and it is not intended to be, and should not be, used by anyone other than these specified parties.
